### WORK EXPERIENCE

Practo, Bengaluru, India

Software Engineer 2 Jan. 2021 – Present

Practo is a healthcare startup which helps connect patients to right doctors via offline and online consultations, eases footfall management for hospitals and much more.

Practo, Bengaluru, India

Software Engineer 1 Oct. 2019 – Dec. 2020

- Created and managed the frontend and the graphQL API of the marketplace product of Practo
- o Improved the CI/CD pipeline and reduced the build time to 8 minutes from 20 minutes
- Re-architecture the analytics and event logging of the mobile website
- o Migrate Practo's hospital REST endpoints to GraphQL

Practo, Bengaluru, India

Software Development Intern

May. 2019 - Oct. 2019

- Created and managed the homepage of Practo
- o Implemented client-side caching using serviceworker and transformed mobile web to a progressive web app
- Increase the test coverage of Practo home by 50%

#### **SKILLS SUMMARY**

**Languages**: C++, JavaScript, TypeScript, Golang, Python, Rust, Bash **Libraries & Frameworks**: React.js, Node.js, Next.js, Redux, Jest

Tools & Technologies: Docker, PostgreSQL, GraphQL, Rest API, Nginx, Microservices

### **EDUCATION**

### University School of Information, Communication and Technology — GGSIPU, Delhi, India

Bachelor of Technology in Computer Science

Aug 2015 – Aug 2019

All India rank of 452 among 50,000 students which appeared for the entrance exam

**Courses**: Algorithm Design and Analysis, Object oriented Software Engineering, Database Management Systems, Foundation of Computer Science, Machine Learning

# **ACHIEVEMENTS & CERTIFICATIONS**

- Represented University in 2017-2018 ACM-ICPC and was 6<sup>th</sup> and 14<sup>th</sup> nationally in Gwalior and Kolkata regions respectively [ACM ID]
- $\circ~$  Won the innovation award in Smart India hackathon 2018 for building Hazard remote alert
- Winner of annual algorithm coding competition of JIIT university, Noida
- ∘ Completed FreeCodeCamp's responsive design certification (~300 hours) [Certificate]

# **PROJECTS**

## Hazard remote alert

Smart India Hackathon Mar. 2018 – Apr. 2018

 Created web dashboard and android application to display hazardous gas concentration sourced from raspberry-pi and alert the user when concentrations reach above safe levels.

## **Movie Nominations**

Github Dec. 2020 – Dec. 2020

Created a movie nomination web-app with Next.js, TypeScript and GraphQL

#### Google Meet Helper

*Greasyfork Sep.* 2020 – *Sep.* 2020

 $\circ$  Created a script to disable camera, mic and auto join google meet ( $\sim 300+$  installs)
